### About Theater Education

The Theater Education Program was developed to expand theater opportunities for participants grade 3 through adults. Through workshops, community members can engage in activities designed to expand their knowledge of the many different aspects of theater. Most workshops culminate in a public performance at The Reif. Training components are embedded into the rehearsal process for each production, and more workshops are being designed and developed as the Theater Education Program moves forward

A spring production is planned for students grades 3-12 with public performance April 11-13.
