Introduce your child to musical concepts and creative movement to develop cognitive skills

Add musical play to your spring schedule. High energy exploration keeps active toddlers engaged as they sample hand-held instruments, experience contrasting sounds, motions and sensory items. Through repetition, rhythmic play and concrete themes your child will build language skills, large motor and social-emotional skills.

Explore musical concepts through fun songs, instrument exploration, drama, stories, art and creative movement.

Class is brought to you by MacPhail Center for Music via telepresence with an in-class facilitator. Children birth-age 5 (with an adult) gain musical knowledge and skills which enhance child development and prepare them for future musical study. With 50 years of experience, MacPhail is a leader in providing children the best start in music.
